

Shin-Kori unit 3&4

Development of IDIS
(Integrated Drain Information System)
for reducing radiation exposure

Sept. 10, 2015

Shin-Kori nuclear plant #2, KHN
Dong-ug Kim

Radiation Zone

Too much spend time

INTRODUCTION

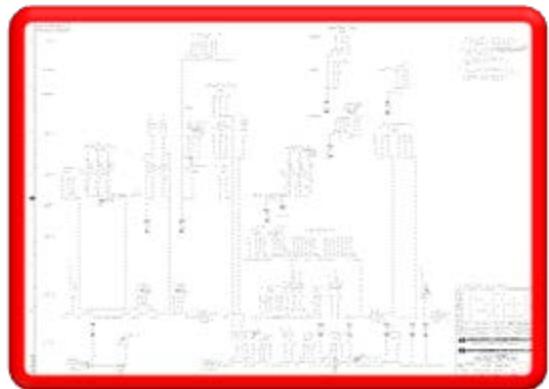

▷ PURPOSE

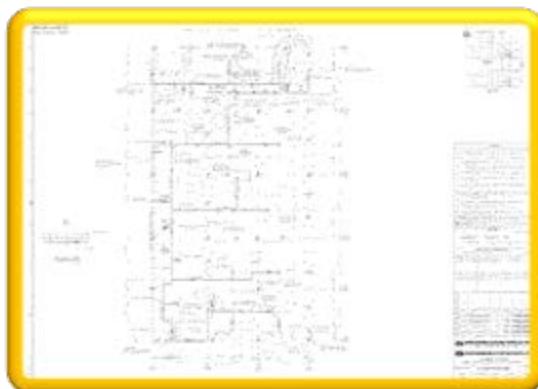

- - To reduce radiation exposure of workers by finding drain pipes faster and by setting the limits when abnormal event occur like leaking liquid waste.

Equipment Drain Hole

Problem : Pollution 1-2

Problem : Pollution 2-2

before

After

EXPECTED EFFECT

- ▷ Leakage accident(KHNP) : 62/year
- ▷ Use to find the cause about sump's and water tank's level increase/decrease in abnormal accident
- ▷ Reduction of worker's radiation exposure

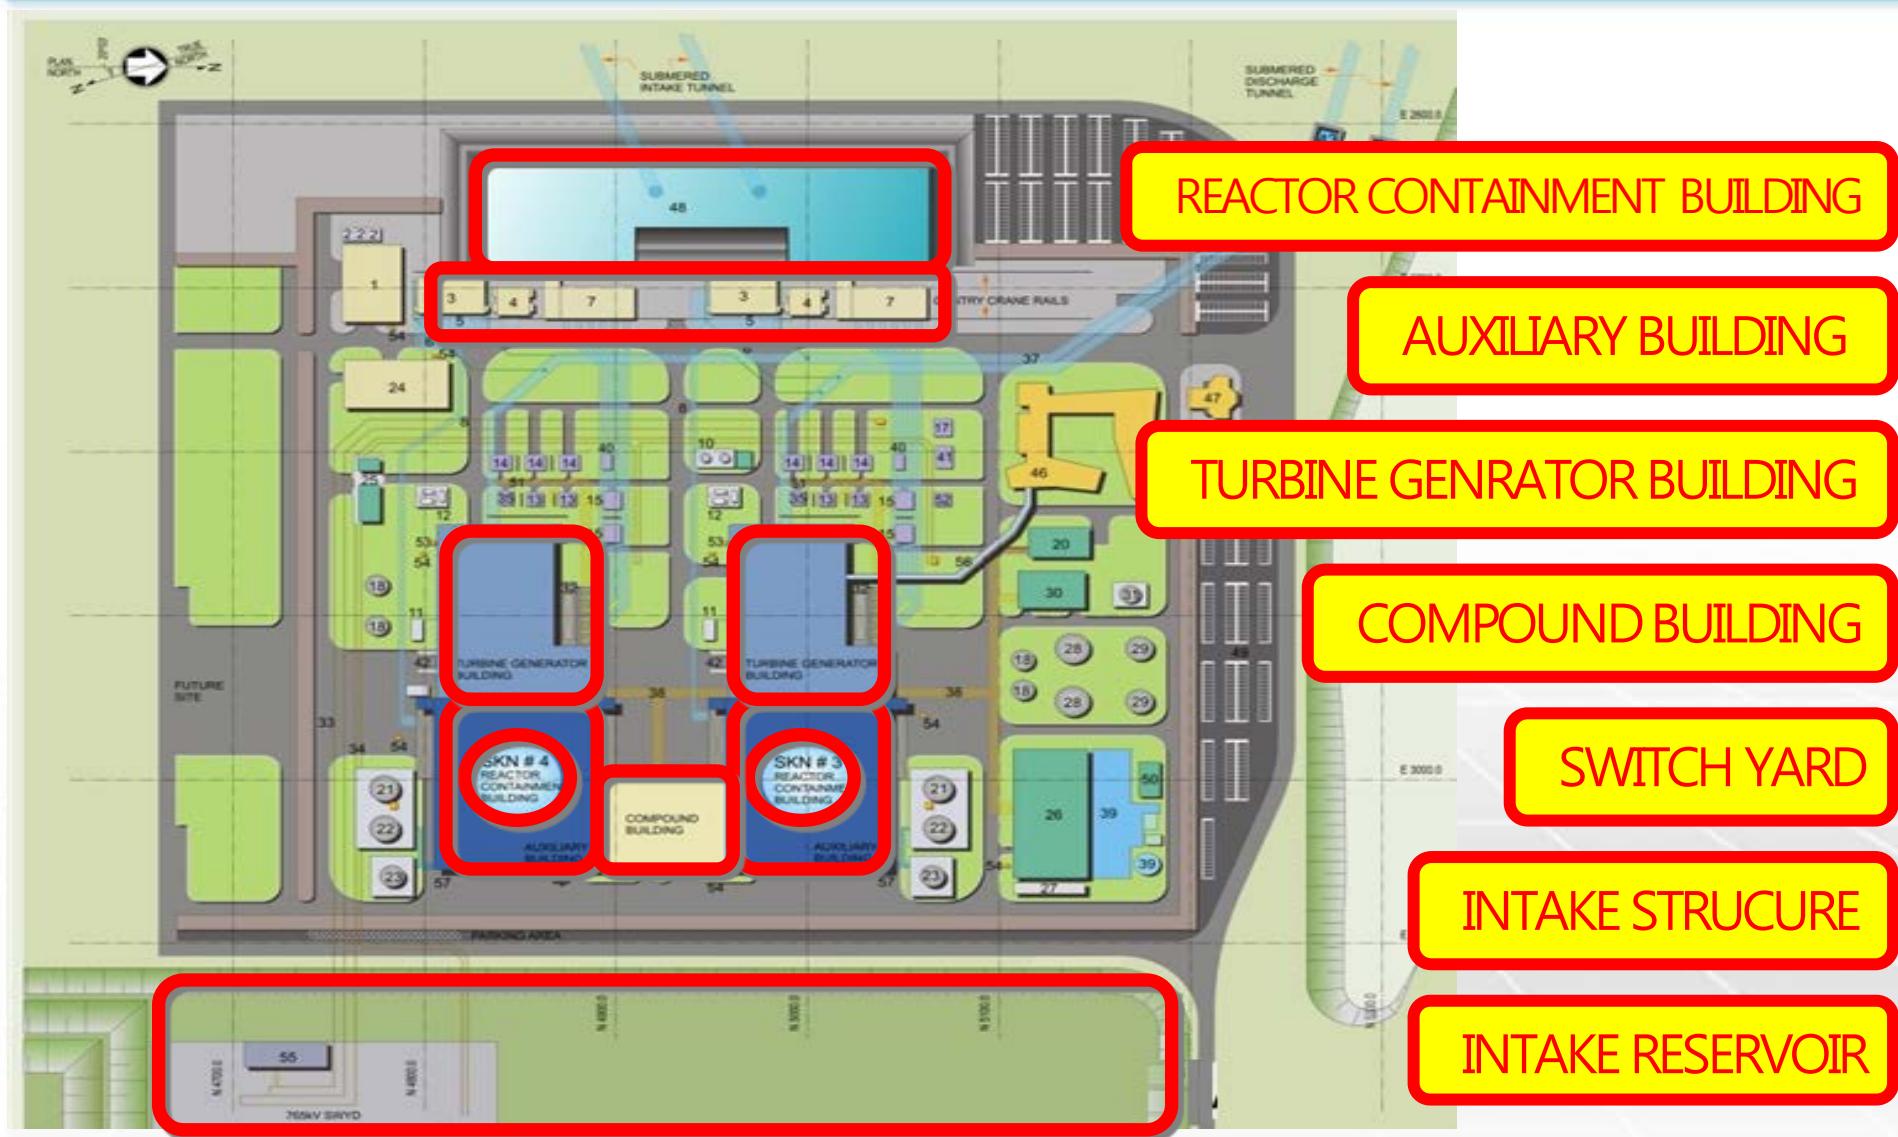

Thank you

APR 1400(SITE PLAN)

APR 1400(IMPROVEMENT)

IMPROVEMENT OF DESIGN

Contents	OPR 1000	APR 1400
Design lifetime	40 years	60 years
Capacity of generating plant	1000MW	1400MW
Refueling period	12~18 months	18 months
Instrument & control system	ANALOGUE	DIGITAL
Seismic design	0.2g	0.3g

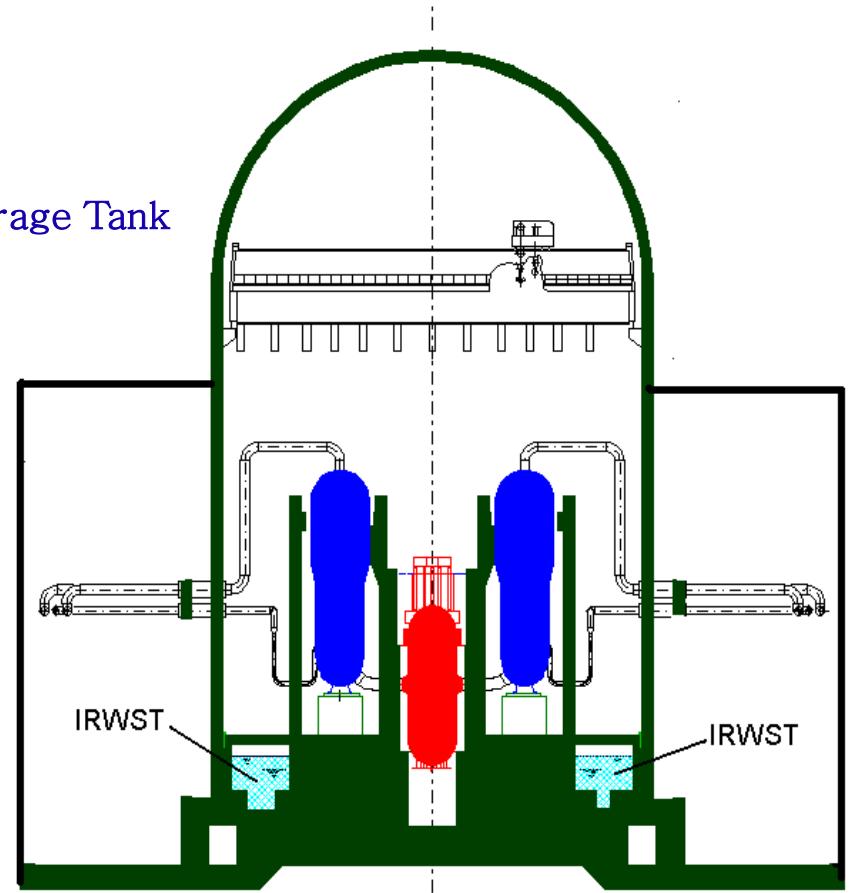

APR 1400(IMPROVEMENT)

IMPROVEMENT OF EQUIPMENT

IRWST

- IRWST : In-Containment Refueling Water Storage Tank
 - Unnecessariness of changing the safety injection pump's suction
 - Continuous supply of cooling water in accident

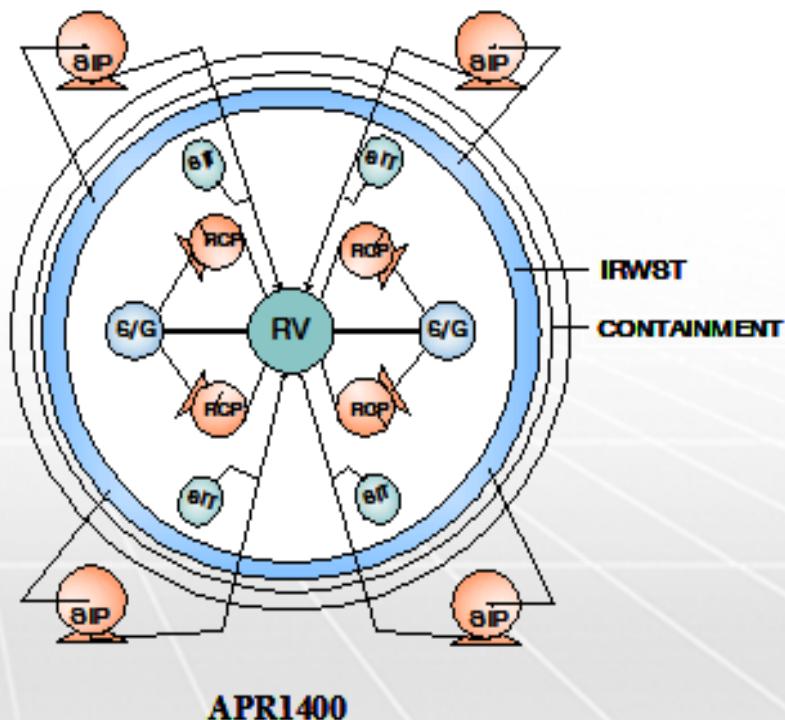

APR 1400(IMPROVEMENT)

IMPROVEMENT OF EQUIPMENT

DVI

- DVI : Direct Vessel Injection
 - 2 division cold-leg injection
→ 4 division reactor injection
 - Loss protection of safety injection suction in accident

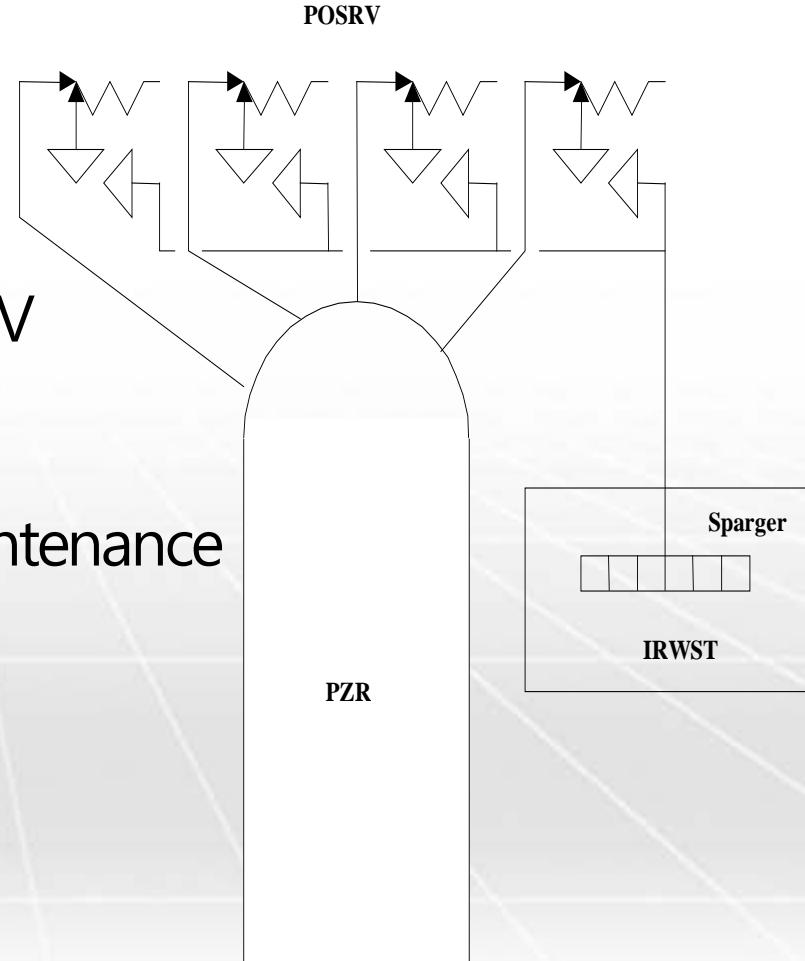

APR 1400(IMPROVEMENT)

IMPROVEMENT OF EQUIPMENT

POSRV

- POSRV : Pilot Operated Safety and Relief Valve
- Integration between SRV and PRV
 - * SPV : Safety Pressurized Valve
 - * PSV : Pzr Safety Valve
- Improvement of equipment maintenance and simplification

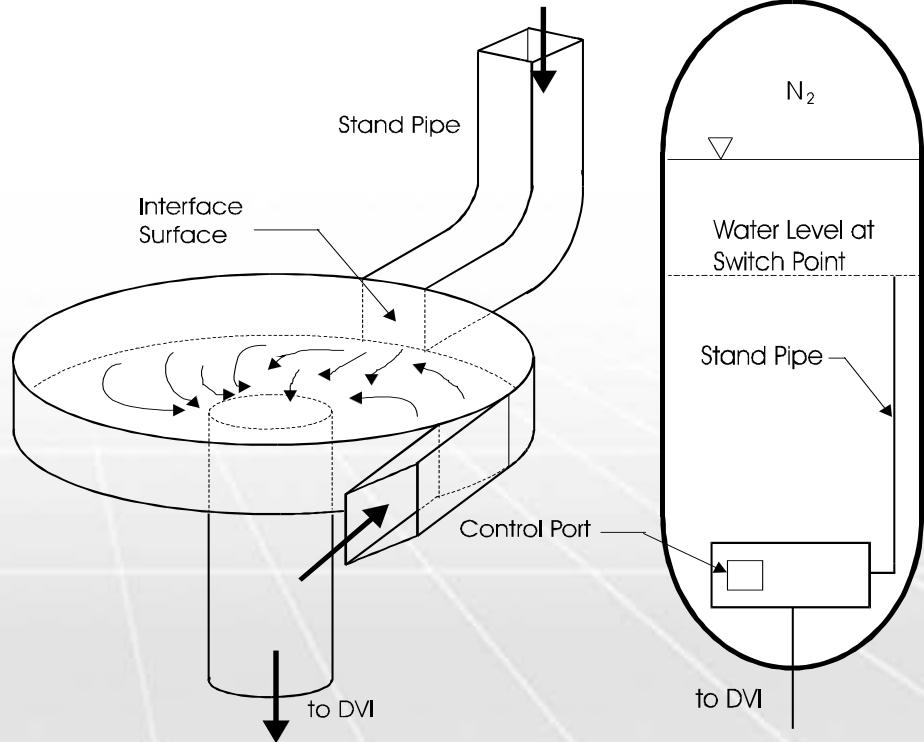

APR 1400(IMPROVEMENT)

IMPROVEMENT OF EQUIPMENT

SIT Fluidic Device

- Installment of SIT Bottom
 - * SIT : Safety Injection Tank
- Safety enhancement by extending the safety injection time

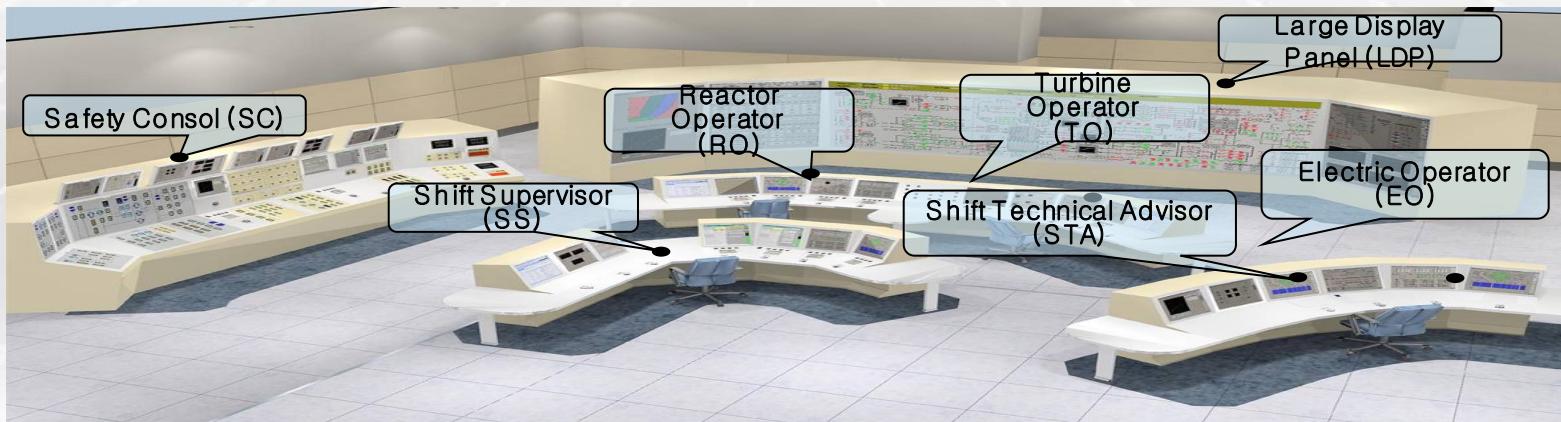

APR 1400(IMPROVEMENT)

IMPROVEMENT OF EQUIPMENT

MMIS

- MMIS : Man-Machine Interface System
 - Application of MMI human engineering design basis
 - Computerization of procedure
 - CPS : Computerize Procedure System

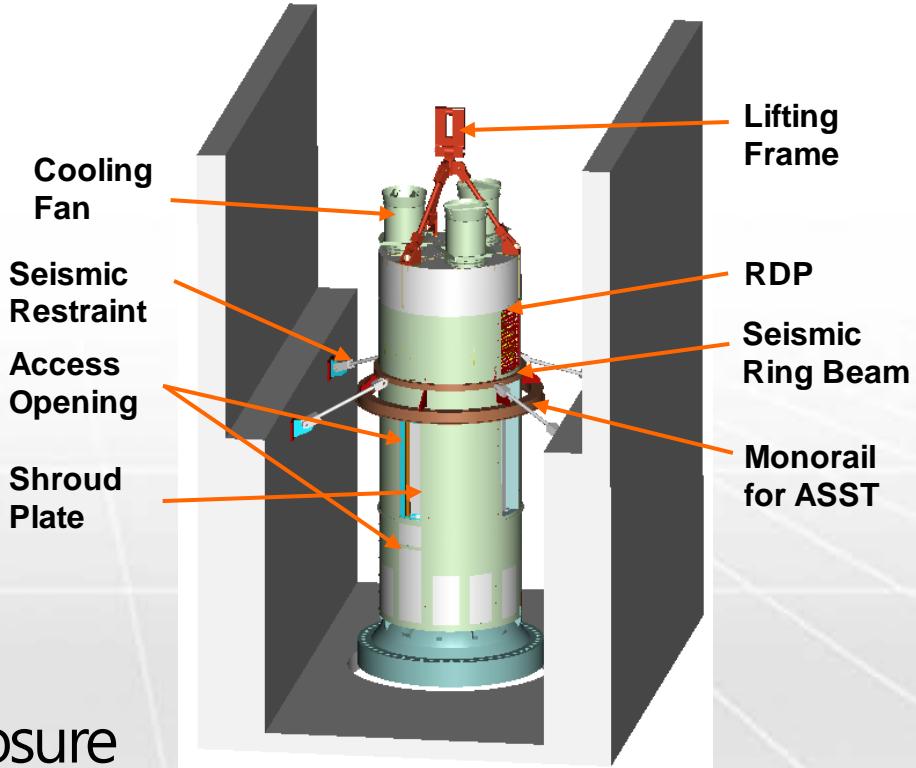

APR 1400(IMPROVEMENT)

IMPROVEMENT OF EQUIPMENT

IHA

- IHA : Integrated Head Assembly
 - The simplification of upper structure design
 - Improvement of equipment maintenance and constructability
 - Reduction of radiation exposure

APR 1400(IMPROVEMENT)

IMPROVEMENT OF EQUIPMENT

Submerged intake system

- Environment friendly
