*1 This is the amount of waste transported to Tokai Daini Power Station.

*2 This includes the amount (920) reduced at the Tokai Power Station.

*3 This includes the waste that was transported from the Tokai Power Station.

*4 Two drums, which could not be determined as applicable to the technical standards due to being transported to the low-level radioactive waste burial center, were not included in the amount at the end of the fiscal year, since these were stored in the power plant buildings.

*5 Three drums, which could not be determined as applicable to the technical standards due to being transported to the low-level radioactive waste burial center, were not included in the amount at the end of the fiscal year, since these were stored in the power plant buildings.

*6 The value was calculated assuming that 99 100-liter drums equal 50 200-liter drums.
