	Amount of storage at the end of FY2000	1,767	-	6,797	1,125	9,689	

\*1 This is the amount of waste transported to Tokai Daini Power Station.

\*2 This includes the waste (1088) reduced at Tokai Power Station.

\*3 This includes the waste that was transported from Tokai Power Station.

\*4 Three drums, which could not be determined as applicable to the technical standards due to being transported to the low-level radioactive waste burial center in FY 1999, were ended to investigation in the waste disposal volume reduction building. these were stored in the solid waste

\*5 The value was calculated assuming that 99 100-liter drums equal 50 200-liter drums.
